

TREVAR LADD

SUMMARY

Lead software engineer and technical leader with 9 years of experience building enterprise platforms and customer-facing authoring products. Drives Architecture and product decisions across teams, translating ambiguous customer and business needs into scalable full-stack systems. Recognized with Salesforce's FY25 President's Award for engineering impact and trusted to lead complex initiatives spanning content authoring, personalization, scripting, and developer tooling.

EXPERIENCE

Lead Member of Technical Staff, 08/2024 - Current **Salesforce - Indianapolis, United States**

- Providing technical leadership for Salesforce Marketing Cloud Advanced content and content authoring capabilities by driving architectural decisions across multiple initiatives, leading design and code reviews, establishing engineering best practices, and providing technical guidance across teams.
- Partnering with product managers, engineering leadership, and cross-functional stakeholders to shape product direction, advocate for high-impact customer capabilities, evaluate technical tradeoffs, and help prioritize engineering investments based on business value and implementation complexity.
- Developing full-stack capabilities for Salesforce Marketing Cloud Advanced, delivering scalable content authoring and personalization experiences across email and SMS.
- Building core content authoring and scripting capabilities, including Handlebars and AMPscript tooling, merge fields, repeating content blocks, reusable components, and in-builder scripting experiences.
- Consistently delivered a high volume of complex engineering work while maintaining quality, mentoring other engineers, and taking on broader technical leadership responsibilities beyond direct feature implementation.

Senior Member of Technical Staff, 06/2021 - 08/2024 **Salesforce - Indianapolis, United States**

TOP SKILLS

- Product-focused technical leadership
- Customer advocacy
- Full-stack development
- Software architecture
- AI Tooling & Engineering Efficiency
- Cross-team collaboration

- Led cross-team design and implementation of repeating content blocks in Salesforce Marketing Cloud Advanced Content Builder, coordinating technical work and dependencies to deliver a major new authoring capability.
- Improved email rendering performance by up to 80% through architectural and implementation optimizations.
- Served as Scrum Master for a product-focused Agile team, managing the backlog, coordinating delivery priorities, facilitating ceremonies, and driving sprint execution.
- Developed Salesforce Marketing Cloud Package Manager as part of a dedicated product team, integrating with Marketing Cloud APIs to support application package deployment and management.
- Investigated and resolved complex customer-reported production issues through root cause analysis and cross-functional collaboration.

Key Technologies: React, TypeScript, Node.js, LWC, Java

Application Engineer Consultant, 04/2021 - 06/2021

OneAmerica - Indianapolis, United States

- Progressed through three promotions while contributing to enterprise software development and technical leadership responsibilities.
- Served as technical lead on key enterprise initiatives, driving solution design and execution aligned with business objectives.
- Designed, developed, maintained, and supported enterprise applications running in Java, Pega, JavaScript, and Node.js.
- Improved CI/CD pipelines, Agile delivery practices, and SDLC processes to increase development efficiency and software quality.
- Established and enforced engineering standards, coding best practices, and SDLC governance across development teams.
- Researched, evaluated, and introduced emerging technologies to improve enterprise platforms and development practices.
- Mentored and coached engineers through technical guidance, code reviews, and knowledge-sharing sessions to strengthen team capabilities.

Key Technologies: Java, Java EE, Pega, JavaScript, Node.js, MarkLogic, NoSQL, REST APIs, Git, Azure, Jenkins

Application Engineer II, 08/2019 - 04/2021

OneAmerica - Indianapolis, United States

Application Engineer, 08/2017 - 08/2019

OneAmerica - Indianapolis, United States

AWARDS

Salesforce FY25 President's Award - Recognized among top 1% of Salesforce engineering talent for exceptional impact and technical ownership.

EDUCATION

Bachelor of Science, Computer Science, 01/2017

Indiana University-Purdue University At Indianapolis -

Indianapolis, IN
